Dear Sir,

I urge you to continue to protect American Citizens from defacto monopolizing of the media, which is such a huge factor in the public opinion these days, as you are well aware.

As an example of that I would like to point out that for many years the media has been portraying law enforcement people as the bad guys, but then 9/11 came along and all of a sudden they were the good guys again. And this has had a large effect on some court cases as you are probably well aware.

Just a few very wealthy individuals can just about 'own' the media if the government does not protect us from their monopolizing of it. Please do *not* relax the rules that protect us.

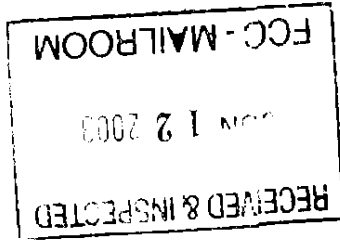

As a possibly side issue I would like to point out that same defacto censorship of scientific opinion that does not conform to establishment dogma. To substantiate that statement I would refer you to a number of excellent books:

1. *Quasars, Redshifts and Controversies* by Halton Arp (Especially chapter 10)
2. *Seeing Red* by Halton Arp (Especially the preface)
3. *Vitamin C, the Common Cold and the Flu* by Linus Pauling (Especially chapter 12)
4. *Shattering the Myths of Darwinism* by Richard Milton (Especially the preface)
5. *Forbidden Archeology* by Cremo and Thompson (see, for instance, 'persecution' in the index)
6. *Inventing the AIDS Virus* by Peter H. Duesberg ( A fat book but *sooo* interesting)

Can you folks do anything about this wretched, censorious state of affairs?

Sincerely,

Richard C. Muller
